This warranty does not extend coverage caused by misuse, accident, misapplication, normal wear and tear, or dents from road debris impact, collisions and/or intentional damage of any kind. It does cover any manufacturing defect, and protection against yellowing, cracking, bubbling, or other failure related to the material itself. Warranty coverage period begins on the initial date of purchase from supplier, unless detailed and photo documentation is provided regarding Lot Number, vehicle identification, install date, and installer.

To file a claim, first contact the original distributor. If for any reason you are unable to contact the original distributor, contact STEK through our web site, www.stekautomotive.com / in the United States contact www.stek-usa.com

You must retain a copy of this warranty and the proof of purchase identifying the name of the original installer/dealer, the purchase price, the product (e.g., DYNOshield), and the vehicle coverage areas. Photos of the defects will be requested. These documents will be needed to process your claim.

All STEK warranties provide full replacement of film only. There is no reduction in warranty for partial time periods or locations, unless otherwise noted. Some installers may choose to offer, on their own behalf, different or additional warranties or remedies, beyond the limited warranty and limited remedy offered by STEK. Please check your state and local laws before installing film on your headlamps and windscreens; every state has different policies for after-market accessories. STEK does not warrant paint protection film installed on headlamps or windscreens and is not responsible for any resulting damage or fines.

For valid claims, STEK may choose to have an authorized STEK installer remove the defective film and reapply new product(s) to areas determined by STEK to be covered by the warranty. Any remedy beyond replacement of the material only is solely at STEK's discretion.

All warranties and conditions are limited in duration to the applicable warranty time period, apply to the original application, and are non-transferable.

LIMITATION OF LIABILITY

Except where prohibited by law, STEK and the installer/dealer of the product(s) shall not be liable for any loss or damage arising from the use of the product(s) whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence, or strict liability.

The warranty and remedies described above are the exclusive warranties available for the product(s). STEK installers/dealers cannot modify or extend this limited warranty. STEK will be solely responsible for determining the validity of all claims and reserves the right to deny claims that do not meet the above criteria. Replacement of the defective film is the exclusive remedy; liability does not extend to any other damages, incidental, consequential, or otherwise.
